INTE 3363
Assignment 2 Due: Oct 8

A. Dreamweaver

**Web Navigation**

Create a horizontal navigation bar for a pizza restaurant website

Include:

| Home | Menu | Locations | Nutrition | Deals |
|---|---|---|---|---|
| | Dine In | Nova Scotia | | This week |
| | Take Out | New Brunswick | | Sign up |
| | | Prince Edward Island | | |

**Two (2) options**

1. Create using HTML and CSS coding
   - Video available to assist (copy/paste url)
   - Part 1: http://www.youtube.com/watch?v=TmQm-p3wCSU
   - Part 2: http://www.youtube.com/watch?v=T7ayE5AtRUA
   - You can use Dreamweaver as your editor (under code view)
   -
2. Create using HTML and CSS using Dreamweaver wizards (no coding)
   - Video available to assist (copy/paste url)
   - http://www.youtube.com/watch?v=aMaJZWExQvE

You can link to test pages or other websites to test your navigation bar

Create a folder in your webcoursespace named 'Assign2'
Upload your completed navigation bar to this folder

B. PHP / MySQL

Using your subdomain created at ***000webhosting.com*** and Cpanel explore the following:

- Uploading Files via FTP or File Manager
- View PHP Configuration
- MySQL
- MyPHPAdmin

Note: No hand in required, no changes required – only want you to explore so when we begin PHP / MySQL you have seen the screen and may have some questions.

Optional:

Using the file mysqltest.php – from course webspace (use view source – save as mysqltest.php) then upload to your sub-domain and access the file from there.

You Need (see notes on screen):

mysql hostname:
mysql username:
mysql username password:
mysql database name:
