INTE 3363 – Advanced Web Design and Development Exercise 1

Due: Sept. 17 Class

Prepare the following (in a Word Document)

*Note: Name your word document INameExercise1.docx (ie. RFarmerExercise1.docx).*

*Place this document in a new folder named Exercise1 on your course web space.*

1. What does DNS stand for?
2. What is a Domain Name?
3. What is a Domain Name Registrar?
4. List 5 Domain Name Registrars?
5. Using at least 3 Domain Name Registrars search for various different domain names. Your task is to find one available (not taken, not reserved, not for sale) domain name for each of the follow:
   - .com
   - .net
   - .ca

   *Note: your domain names must be different:*
   *ie. Not RobertFarmer.com and RobertFarmer.ca*

6. Prepare a table *(similar to below)* for each of the 3 Domain Names. Include the Domain Registrars (at least 3), the costs for 1, 3, 5 years (if possible) and other services offer such as Hosting.

*Domain 1: abc-xyz.com*

| | *Cost: 1 Year* | *Cost: 3/5 year (if possible)* | *Offer Hosting Services ($)* | *Other Services Offered ($)* |
|---|---|---|---|---|
| *Registrar 1* | | | | |
| *Registrar 2* | | | | |
| *Registrar 3* | | | | |

7. Include a list of domain names you searched (many are likely taken).
8. What is meant by Web Hosting?
