INTE 3363 - Advanced Web Design and Development Exercise 2

Due: Sept. 24 Class

Create a Web Space (SubDomain) for yourself:

Using the Free Web Hosting service: http://www.000webhost.com/

1. Create a new subdomain for yourself. Using a form of your name.
   ie. RFarmer, RobertFarmer, RFarmer1234, etc.
2. Once the new subdomain has been created explore CPanel (linked on page after you login)
3. Prepare the following printouts to hand in:
   a. from CPanel - View Account Detail
   b. from CPanel - View FTP Detail
   c. Access your new subdomain via a web browser - and print default page
   d. Prepare a cover page for your hand in (include: yourname, course number, date)
4. Using FTP access your new subdomain
   a. Download the only file in the "public_html" folder
   b. Using your webspace on webcoursespace.com create folder named "Exercise2"
   c. Upload the file to your webspace on webcoursespace.com
